PHILOLOGICAL NOTES ON THE LETTER
LAMBDA IN A NEW GREEK-ENGLISH
DICTIONARY*
II. ΛΑΣΙΟΚΝΗΜΟΣ – ΛΗΜΨΑΠΟΔΟΣΙΣ

Part II. Two generations ago, Robert Renchan published a series of articles expanding, refining, and correcting entries in the 9th edition of the monumental Liddell–Scott–Jones *Greek-English Lexicon* (1940) as supplemented by Barber and his fellow editors (1968). These notes on the letter *lambda* in the new *Brill Dictionary of Ancient Greek* are offered in a similar spirit.

Часть II. Полвека тому назад Роберт Ренеган опубликовал ряд дополнений, уточнений и поправок к девятому изданию монументального словаря Liddell–Scott–Jones, *Greek-English Lexicon* (1940), дополненного группой издателей во главе с Барбером (1968). Нестоящие заметки к леммам на букву *лямбда* призваны сыграть аналогичную роль по отношению к новому *Brill Dictionary of Ancient Greek*.

* See *Hyperboreus* 29 : 1 (2023) 143–166. Thanks are due Benjamin Millis and David Sansone for criticisms and comments on an earlier draft of this material. In addition, I gratefully acknowledge support for my research in 2021–2023 carried out under an agreement for the provision of grants from the federal budget of the Russian Federation in the form of subsidies No. 075-15-2021-571, project “Digital commentaries to classical texts: Greek comedy” (IWL RAS, Moscow, Russia).
